Technical drawing of a mechanical device, likely a pump or motor, showing a side view. The device features a vertical cylindrical body with a flange at the top and a base. A horizontal pipe or duct is connected to the side of the upper section. A diagonal support structure is visible on the right side. A vertical dimension line on the left indicates a height of 842.

Technical drawing of a mechanical part, likely a flange or mounting plate, showing dimensions in millimeters. The drawing includes a central rectangular section with a circular feature on the left and a larger circular feature on the right.

Key dimensions and features:

- Overall width: 5726
- Overall height: 4839
- Top horizontal dimension: 1973 (left section) and 3753 (right section)
- Left vertical dimension: 1127 (top section) and 2402 (middle section)
- Bottom vertical dimension: 1311 (left section)
- Central rectangular section width: 2000
- Central rectangular section height: 2000
- Radius of the left circular feature: R1000
- Radius of the right circular feature: R1500
- Distance from the center of the right circular feature to the right edge: 1500
- Distance from the center of the right circular feature to the bottom edge: 1500
- Distance from the center of the right circular feature to the top edge: 1500
- Distance from the center of the right circular feature to the left edge: 1500

Bij droog weer moeten alle bouten en schroeven opnieuw aangespannen worden.
Par temps sec il faut resserrer régulièrement toute la visserie.

By dry and warm weather check the tightness of all bolts and screws.

Bei trockenem Wetter müssen alle Schrauben und Bolzen aufs neue angespannt werden.

Para el tiempo seco, se necesita cerrar o ajustar los tornillos y tuercas.
